

**The Tsunami Damage to
Maternity Teaching Hospital
Galle Sri Lanka**

Entrance to Hospital...

Neonatal Intensive Care Unit...

Blood Bank - Roof...

Inside of Blood Bank...

Inside of a Ward...

Inside of Kitchen...

Concrete Roof of the Ground Floor...

Disruption of Sewage & Water Lines...

Corridor to Operation Theatre...

Engineers do not recommend repairs

because...

- **Buildings are 90 years old**
- **Extensive repairs needed**
- **Even if repaired**
 - **guaranteed only for 10 years**
 - **high maintenance cost**
- **Aggressive environment with high rate of natural decay**
 - **high maintenance cost of even new buildings**
 - **difficult maintenance of sensitive surgical electronic & electrical equipment**

We need a new hospital away from the sea

Best option is

**near the existing
non Maternity Teaching Hospital &
the Medical Faculty**

at Karapitiya

PLEASE HELP US !

THANK YOU
